

Press Release for Tres Leches Cake

The crypto world has brought us many new coins and tokens, to many remember the first time they invested in one coin like bitcoin, Ethereum or even Shiba Inu. Meme tokens or coins are the new trend and to many it can represent a risk, however there are many exciting projects in the crypto world that are going to bring the future. Thinking on how we can evolve the meme coins into a good use case or utility are very interesting, we also think of charity and how can we contribute to the future. That is the goal of a token called Tres Leches Cake, the token goal is to create a Scholarship where we can give an opportunity to the high school students to go to college and learn new technologies. \$3LechesCake is here to stay and to help the future students, and bakers around the world to have a token they can use to buy and sell for their shops. The holders of \$3LechesCake will be able to earn 5% rewards in Cake, Cake is the PancakeSwap Token and people will be able to use to buy more Tres Leches Cake or to buy any other token they want.

Over the next few weeks, the token has taken off and will be available to the community to buy and sell and of course to earn rewards while contributing to an amazing cause like a Scholarship.

People interested in the scholarship will have the opportunity to apply for it every semester, during the scholarship evaluation period the student needs to have at least 10,000 \$3LechesCake Tokens that is as little as \$5 USD. They will need to do an essay of a subject created by the community, one of the key features of Tres Leches Cake is that it is a true Community Token. The community decides the course of action of the token. They will be able to vote and select the winner of the scholarship, they will be able to vote and decide the future of the token. This is a unique opportunity for the holders of Tres Leches Cake.

\$3LechesCake is a BEP-20 token created on the Binance Blockchain and is a Binance Smart Chain, this is the first version of the dessert on the cryptocurrency world and is more than just a meme token.
